Electric height adjustable desks

General information

ONE MOTOR THAT DOES IT ALL

Prolonged sitting has become part of everyday life for many office employees. When you're sitting still in front of a computer for hours every day, the risk of injuries increases and it influences your level of energy. A height adjustable desk from ConSet gives you the ability to go from the sitting to the standing position whenever you wish at the push of a button. The technique in and around the motor is the heart of the desk. It ensures calm and gentle movements when you wish to move the table top either up or down and it ensures that the table top is always evenly adjusted.

With ConSet you get a one-motor-desk that does it all.

- Reliable
- High quality
- Great lifting capacity
- High construction strength
- Good prices

STRENGTH & STABILITY

Stability means everything when you're choosing an office desk. Every height adjustable desk from ConSet is made from quality materials and meet both the EU and Danish working environment authority's demands on a flexible and ergonomic workplace. This ensures you a stable and long lasting desk – and greater employee well-being. Unlike many tables that have two motors, a ConSet table withstands an uneven load. This means that you can place your office equipment anywhere on the table top. The total load on the desk frame must always be within the maximum working load that is specified for each ConSet product.

ENVIRONMENT

At ConSet we think it is important to minimize environmental impacts. We want to take responsibility for ensuring that our products are made respecting the environment. We do this in several ways:

- Our wood products are E1, which is a guarantee that you can buy our tabletops and other wood products in good conscience.
- All electronic equipment meet RoHS framework for the reduction of hazardous substances in electronics, whereby the environmental impact is minimized.
- Through Elretur (Denmark), we ensure that electronic waste is managed environmentally under the WEEE directive.

CE MARKING & PRODUCT APPROVALS

All ConSet electric height adjustable desk frames are CE marked in collaboration with the Technological Institute in Denmark. CE marking is a requirement for height adjustable desk frames and it allows you to be sure that the producer has been through all aspects of security risks. Furthermore, our power supplies are GS-tested (German standard).

EN 527-1/2/3: Dimensions / Mechanical safety requirements / Methods of Test for the Determination of Stability and Strength of the structure
DS/EN 12720-21-22: Furniture - Assessment of surface resistance to cold liquids, wet and dry heat.

CONSET - A DANISH COMPANY

ConSet was founded in 2000 in Denmark, and our basic philosophy was that ergonomics should not be expensive. We began with the idea to develop and manufacture high quality electric height adjustable desks and to make them affordable so more people could experience the benefits of sit-stand desks. The company has succeeded well and now has distribution and subsidiaries throughout the world.
